

JEAN-BAPTISTE SOULETIE

PLANET

chair  2019

Planet is an upholstered chair inspired by the distinctive silhouette of planet Saturn. The rings of the 6th planet from the solar system are mostly composed of ice particles and form a smooth ellipsis that inspired the shape of the wooden back supporting the round cushion of Planet.

The subtle texture of solid wood paired with the delicate touch of a wool broadcloth by Maison Pierre Frey give the Planet a soft and luxurious feel. The Planet chair combines the poetry of celestial bodies with the cold technicity of space modules as the mat

black metal structure brings a contrasting technical feel.

The sturdy metal tubes are welded and assembled by hand by the best Italian artisans. The wooden back is sculpted and bent before it is sanded to emphasize the natural grain of black stained solid ash. The upholstered seat and back ensures high level of comfort, but Planet chair remains a featherweight at only 6kilos for a practical use every day.
